IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Serial No. 10/677,770 Date: July 17, 2004
Date Filed: 1 October 2003 Examiner:
Applicant: Roy E. Moore, Jr. Group: 3726
Title: Ergonomic Length Leaching Chamber Attorney No. 2222

INFORMATION DISCLOSURE STATEMENT

Applicant encloses Form 1449 together with copies of the documents cited therein.

The Reln Brochure shows several models of 5 foot long drains which are about 20-23 inch (i.e., less than 2 ft) wide. The approximate English dimensions and parameters relevant to the present application have been handwritten on the brochure by applicant. While the manufacturing method is not stated in the publication, the Reln chambers are necessarily very thin walled, assuming the weights are correct. Thus, applicant thinks it is improbable that injection holding would be used. More likely, the devices are formed vacuum forming. Although the publication is undated, for purposes of this examination, applicant admits a publication date more than one year prior to his application.

The extract from the Burgess book relates to human dimensions and standards for workplaces, insofar how people can reach, etc.

Respectfully submitted,
ROY E. MOORE, JR.
